

The trail, shown as a blue dashed line, **does not exist** as of 2020OCT08. Based on information available on the City of Waterloo website, it appears that such a trail may be constructed in the future. The cost would be substantial since it would require that the trail pass under the Conestoga Parkway. Such a multipurpose trail would provide a connection between the trails north west of University Ave (Hillside Park, Forwell Trail & Dearborn Plaza) and the trail system in Bechtel Park.
